Abstract (en)
[origin: WO2015065319A1] Optimizing a consulting engagement includes, with a processor, clustering a consulting engagement with a number of reference consulting engagement models based on similarities between the consulting engagement and the number of reference consulting engagement models, with the processor, presenting engagement procedures to a user for the consulting engagement, and, with the processor, determining the engagement procedures to be executed based on a regression analysis to optimize the consulting engagement.
