Abstract (en)
[origin: WO2015062675A1] A Refrigerated sales furniture (2) comprises a refrigerable goods storage and presentation space (4) having a front access portion, providing access to the goods storage and presentation space (4) from the front; an upper access portion, providing access to the goods storage and presentation space (4) from above. The refrigerated sales furniture (2) further comprises a front door (10), particularly an at least partially transparent front door (10), which is moveable between a closed position closing the front access portion and at least one access position providing access to the goods storage and presentations space from the front; an upper door (12), particularly an at least partially transparent upper door (12), which is moveable between a closed position closing the upper access portion and at least one access position providing access to the goods storage and presentation space (4) from above; and a linking mechanism (13) linking the front door (10) and the upper door (12) with each other so that a movement of one of the doors (10, 12) causes a corresponding movement of the other door (10, 12).
