Abstract (en)
[origin: WO2015068093A1] The object of the invention is to provide a generic device with an advantageous construction. To achieve this, a hob device (10a- l) is disclosed, in particular an induction hob device, comprising a hob element (12a- l) and at least one display unit (14a- l), which, when viewed from above, is arranged in at least one edge region (16a- l) of the hob element (12a- l).
