Abstract (en)
[origin: US2016265147A1] The present invention relates to a knitting needle (1) for a knitting game for making knitted products having a round cross section with a first leg (3) extending rigidly from a rigid shaft section (2) in a first direction of extent (5) to a first free end (6) suitable for taking up stitches and a second leg (4) extending from the rigid shaft section (2) rigidly in a second direction of extent (7) to a second free end (8) suitable for taking up stitches, whereby the center of gravity (10) of the knitting needle (1) is arranged within the shaft section (2) and whereby the first direction of extent (5) and the second direction of extent (7) form an angle (9) relative to one another of at least 37° and less than 60°.
