Abstract (en)
[origin: WO2015067246A1] The invention relates to ashtrays which are preferably smoke and odour-free and which extinguish smoking articles, in particular cigarettes, and cigarette ends, in particular for public spaces and external areas, comprising a container having an upper covering (19) and an upper insertion area (2; 106; 138) for smoking articles, a receiving container (58; 110; 158), in particular a water container, in the lower region of the container, which is in fluid connection with the insertion area (2; 106; 138) for receiving ash and the remains of smoking articles, and a suction device which is in fluid connection with the insertion area (2; 106; 138) for suctioning air and smoke, and with the receiving container (58; 110; 158). The invention also relates to a motor vehicle, in particular passenger cars equipped therewith.
