Abstract (en)  
[origin: WO2015071775A1] A protective casing (1) for a mobile phone (500). The casing (1) comprises a protective frame (10) suitable to protect at least partially the rims (510) of said mobile phone (500). In addition, the protective casing (1) comprises at least one support portion (100) hinged to the protective frame (10) movable between a rest position in which it lies along said protective frame (10) without projecting beyond it, and a support position in which it projects from the protective frame (10) and wherein the protective frame is suitable to be placed in a raised position in relation to a support surface on which it is laid, so as to support the mobile phone (500) in such raised position.
