Abstract (en)

[origin: WO2015070983A1] The invention relates to an air filter for a ventilation system in a motor vehicle, comprising guiding means (24-27) that allow the air filter to be connected to an associated guiding pin (28, 30) on a bay (10) of the ventilation system. On opposite sides (16, 18), the air filter is provided with mutually associated guiding means (24-27) to which the associated guiding pin (28, 30), which penetrates the air filter, can be connected. The invention further relates to an arrangement of an air filter of said type in a bay (10) of a ventilation system.
