Abstract (en)
Stackable box for transporting products, preferably fruit and vegetable products, which comprises at least one base and four lateral walls as well as joining means between said base and lateral walls, such that said joining is carried out without contact with the products which must be located in the interior of the box. Likewise, it comprises means for facilitating the stacking of boxes, one on top of the other. The field of application of the invention is the containers sector for storing and transporting products, in particular wooden boxes for storing and transporting fruit and vegetable products.
