Abstract (en)

[origin: WO2015078737A1] The invention relates to a water-conducting domestic appliance having a storage tank (20) for storing a quantity of gray water and a treatment device (17) for treating the gray water stored in the storage tank (20). The water-conducting domestic appliance is configured for determining the quantity of gray water stored in the storage tank (20) and for operating the treatment device (17) subject to the determined quantity of gray water stored in the storage tank (20).
