Abstract (en)

[origin: WO2015074820A1] A method for controlling a labelling machine (8) and/or at least one labelling unit (10) in the labelling machine for applying application elements, for example labels (11), to containers (3), wherein the labelling machine (8) is provided in a combined container handling system (1), and wherein the labelling unit (10) can be switched between an "Apply" mode for when a container is in a labelling position and a "Do not apply" mode for when there is no container in the application position.
