Abstract (en)
A lifter rod structure includes: a paper tape (3), a lifter rod set (1), and two wall hanging sets (2). Wherein, the paper tape (3) is provided with two positioning holes (31) disposed at its two ends respectively. The lifter rod set (1) includes: a lifter rod (11) disposed upright, a shower seat (12) sleeved onto the lifter rod (11), and two column heads (13) disposed laterally on two ends of the lifter rod (11) respectively. The two wall hanging sets (2) are used to fix the lifter rod set (1), including: a base seat (21), a screw (22), and an inflatable tube (23). Wherein, a center of each positioning hole (31) at both ends of the paper tape (3) correspond to the column head (13) at each of the two ends of the lifter rod (11); while a fastening hole (15) is disposed on a rear end plate (14) of the column head (13) for fastening the base seat (21).
