Abstract (en)  
[origin: WO2015082679A1] The invention relates to a pump housing made of plastic. Said housing is provided with a first casing that has a first side facing the pumped medium, and a second casing that has a second side facing the environment. The pump housing is characterized in that the first casing and the second casing are both dimensionally stable and in that there is a space between the first casing and the second casing.
