Abstract (en)

[origin: WO2015086183A2] The invention relates to an ink feed device comprising an ink blade, a mounting device for the precise mounting of an ink blade, a system for feeding and dosing printing ink, said system comprising an ink feed device and a mounting device, and to a method for renewing a dosing edge of an ink blade, said edge being used to dose the ink. The invention also relates to a method for operating an ink feed device comprising an ink blade.
