Abstract (en)

[origin: WO2015089196A1] An apparatus for use with an electronic device having a microphone. The apparatus comprises a structure configured to detachably couple to the device, and a generator supported by the structure. The generator is configured to generate a force that acts on the microphone and renders the microphone unresponsive to voice sounds. The apparatus may further comprise a shutter supported by the structure and comprising a lens shutter configured to obscure a lens of a camera of the electronic device when in an engaged position.
