Abstract (en)

A pouch container (10) as one example of an embodiment is equipped with wall-surface sheets (11, 12) and a grip part (25), said wall-surface sheets constituting at least a first surface and a second surface that face each other. The grip part comprises an interior sheet (26) that is joined to the inner surface of the first surface and/or the second surface and openings (29) that are formed on the wall-surface sheet to which the interior sheet is joined at positions where the wall-surface sheet overlaps with the interior sheet.
