Abstract (en)  
[origin: WO2015094453A1] A cake decorating and transportation system includes, but is not limited to, shaping tools for the application and/or manipulation of a sugar-based substance, a turntable having a working surface and handles, and a container or vessel configured to preserve and transport a finished product. The components of the system may be employed in combination or may be employed independently to produce the product and then transport it to a final destination. The vessel configured to cooperate with the turntable.
