Abstract (en)
[origin: WO2015091619A1] Disclosed is a drawer front connection unit (2) for a drawer wall element (1) of a drawer, onto which an edge section of a drawer bottom can be placed in order to form a drawer side wall adjoining the drawer bottom. The drawer wall element (1) comprises a wall profile part (4) and a bottom-receiving profile part (11), wherein there is provided on the drawer wall element (1) a support surface present on the bottom-receiving profile (11) for underside support for a drawer bottom that can be placed onto the drawer wall element (1). The wall profile part (4) also has a chamber section (3) with an inner wall sheet section (6) and an outer wall sheet section (7) which are spaced apart opposite one another across a width of the drawer wall element (1) and are connected by an elbow (5a, 5b, 8). The invention is characterized in that the drawer front connection unit (2) is designed to be fitted in the chamber section (3) of the drawer wall element (1) and extends over a height of the chamber section (3), wherein the drawer front connection unit (2) has front fastening elements (13, 14) for fitting a drawer front.
