Abstract (en)
[origin: WO2015090793A1] The present invention relates to a product for colouring and/or lightening keratinous fibres, more particularly human hair, and to a method for employing this product. This product of the invention comprises three compositions, which are kept separate from one another until being employed. The invention further relates to the use of this product for improving absorption of colour in the colouring of keratinous fibres, the use thereof to enhance the wash stability of coloured keratinous fibres, and the use thereof to enhance the conditioning of keratinous fibres.
