Abstract (en)

[origin: GB2521370A] A method of making a product by applying peel ply to at least part of a surface of a composite body, removing the peel ply from the composite body, placing the composite body in a mould and moulding a plastic material on to a part or parts of the composite body. Moulding may be by injection moulding and the composite body may have a resin matrix, be fibre reinforced, sheet formed. At least one fixing in the moulded material may be provided and may be made from metal.
