Abstract (en)

[origin: WO2015090889A1] A method for fitting carrying handles on packs or pack groups which, arranged on a conveyor, are moved in a conveying direction, wherein, in order to create the respective carrying handle in the form of a carrying strap which is fastened, at either end, on the pack or on the pack group, and forms a carrying loop, a length which corresponds to the carrying strap is drawn off from a strip-like carrying-strap material, with a width equal to the width of the carrying strap, and said length is severed to form the carrying strap and has its carrying-strap ends fastened on the pack or on the pack group.
