Abstract (en)

[origin: CA2931321A1] The present invention relates to a pelletization of fine-grained ore particles with the following steps: a) mixing the ore particles with water to which surface-active substances have been added, b) adding a binder and at least one aggregate for preparing a pelletizing mixture, c) supplying the pelletizing mixture to a pelletizing device, and d) processing the pelletizing mixture in the pelletizing device to obtain pellets by addition of water to which surface-active substances have been added.
