Abstract (en)
[origin: WO2015090696A1] A closure (1) for fitting on a suitable opening (3) such as an opening (3) of a container (2), comprising an openable fluidic passage (6) for flow of washing and/or cleaning agents (4), optionally connected to a pipe (7) wherein if the fluidic passage (6) is closed, the closure (1) tightly seals the opening (3) not allowing washing and/or cleaning agents (4) to escape, and if the fluidic passage (6) is open, the closure (1) tightly seals the opening (3) not allowing washing and/or cleaning agents (4) to escape other than through the fluidic passage (6) wherein the closure (1) further comprises at least a first passage for gas (9) between then opening (3) and the outer environment (10), which passage for gas (9) is configured to allow the pressure (11) in the opening (3) and from the outer environment (10) to be compensated.
