Abstract (en)
[origin: WO2015091883A1] Disclosed is a connecting bridge (1) for a switching device (2), said connecting bridge (1) having an electrical switching contact (3) and a contact carrier (4) and the switching contact (3) being arranged on said contact carrier (4). According to the invention, the contact carrier (4) has at least one first sectional part (5) and at least one second sectional part (6), the first sectional part (5) comprises a first material, the second sectional part (6) comprises a second material, said second material differing from the first material, and the first sectional part (5) and the second sectional part (6) are interconnected.
