Abstract (en)
[origin: WO2015096969A1] The invention relates to a grounding busbar (1) for a switching strip or separating strip in telecommunications and data technology, comprising a base (2), on which insertion pins (13) corresponding to the number of twin wires to be connected are arranged, each insertion pin being insertable in an insertion channel of a safety plug (20), and at least one ground contact (7) via which the grounding busbar (1) can be connected to ground, the insertion pins (13) being resilient, and the base (2) having, below each insertion pin (13), at least one detent means.
