Abstract (en)
[origin: CN106167025A] A method for the user-defined provision of a vehicle in which a parking position (C) in a parking region is identified and driven to automatically by the vehicle or with guidance by a user (16) and, at the request (34) of the user (16), the vehicle drives automatically to a transfer location (D) in the parking region for further use. A trajectory (24) which is travelled along as far as the parking position (C) within the parking region is sorted and the transfer location (D) can be defined at any desired point on this trajectory (24). Also disclosed is a system for carrying out the method and a motor vehicle having the disclosed system.
