Abstract (en)
[origin: WO2015114421A1] The invention relates to electrical switchgear for traction power supply, comprising truck-type switchgear (12) that can be drawn out and retracted in a power control panel (11). The truck-type switchgear is equipped with a single-hand operator control, permitting an actuation of the switch using only a few hand movements. According to the invention, a centering guide (17), which guides the truck-type switchgear in the power control panel, is provided, said guide aligning contacts (14) provided on the truck-type switchgear with their respectively associated contact sockets (15) when the truck-type switchgear is pushed into the power control panel.
