Abstract (en)

[origin: WO2015118231A1] The invention relates to a method for manufacturing a box (1) having at least three at least partially rigid side flaps (8), said at least three side flaps (8) being obtained by folding at least one first sheet (16), said method comprising the following steps of: shaping at least one second sheet (16); applying a layer of securing material (20) to a surface of at least one part of said first sheet (16); positioning said at least one second sheet (16) on said part of said first sheet (16) covered with said securing material (20) in order to obtain a sandwich structure (13).
