Abstract (en)

[origin: WO2015118009A1] The invention relates to a preportioned cleaning product, in particular a machine dishwashing product, and the use thereof, said product containing at least one polyalkylene glycol having an average molecular weight of between 150 and 8000. The invention further relates to the use of the polyalkylene glycol for improving the storage stability of liquid cleaning products with a low content of water.
