Abstract (en)

[origin: US2015222496A1] Generally, a computer implemented group distance learning system including one more servers which serve a group distance learning computer code executable to provide a graphical user interface which by user interaction allows a plurality of client users to be allocated into a plurality of client user groups each user group having access to a common graphic user interface to collaborate in performance of group assignments. Specifically, a group distance learning computer code which implements a graphical user interface accessed in common by a plurality of client users from remote locations to facilitate collaborative group video production.
