Abstract (en)

Apparatus for closing and printing/labelling (1) containers (2) comprises an application unit (3) of closures (10) configured for applying, in particular resting and pressing, a concave closure (10) on the mouth (2a) of each container (2) and a plurality of locking devices (4) of the closures (10), each device being configured so as to screw a concave closure (10) on the neck (2b) of the corresponding container (2). The apparatus for closing and printing/labelling (1) further comprises a plurality of printing/labelling stations (7) in which the closures (10) are also screwed by means of corresponding locking devices (4) of the closures.
