Abstract (en)
[origin: WO2015125036A1] The invention relates to a hairstyling instrument (100) for shaping and/or treating hair, which is provided in form of a nozzle configured such as to be attached onto a hairstyling device capable of blowing air, has at least one comb (120) and at least one brush (130, 131), and in which brush bristles are located near teeth of the comb such as to jointly catch a single lock of hair. The invention also relates to a related hairstyling method.
