Abstract (en)

[origin: EP3109020A1] The present invention relates to a wire cutting device (1) for cutting unfired bricks, comprising a wire (2), displacement means (12, 13) for moving the wire (2) downwards through a horizontal unfired brick (10) and control means (13) for controlling this movement. In addition, the present invention relates to a method for manufacturing bricks, such as stone strips (14), comprising forming a hand-moulded brick (10), placing said hand-moulded brick (10) on a surface (11) and cutting it by means of a wire (2) which is moved downwards through the hand-moulded brick (10), cutting the hand-moulded brick (10) before firing.
