Abstract (en)

[origin: WO2015128300A1] The invention relates to an apparatus and a method for a luggage conveying device. Said apparatus (1) comprises an image capturing device (2) for taking at least one image of pieces of luggage (8) that are to be conveyed, a database in which the image or data that is generated from the image and is specific to the piece of luggage (8) can be stored at least in part, and an output device (5) for outputting the stored image or the stored data on a piece of luggage (8) that is to be identified.
