Abstract (en)
[origin: CA2934234A1] A casing shell element for casing concrete includes a rotatable anchor counter piece for anchoring wherein the anchor counter piece includes two pass through holes intersecting each other which are optionally alignable with an anchor hole in a casing shell of the casing shell element for inserting an anchor by rotating the anchor counter piece. One of the pass through holes includes an internal thread for threading in an anchor and another pass through hole is configured without a thread for inserting an anchor onto which an anchor nut is threaded for attachment purposes.
