Abstract (en)

In order to provide means to improve an operating ratio and the like of a fuel cell while keeping using a gas meter and a gas leakage detection system popularly used by a general household, a fuel cell system 100 of the disclosure herein including a fuel cell module 7 configured to generate power by using gas supplied via a gas meter 101 and a controller 4 configured to control the power generation of the fuel cell module 7, wherein the controller 4, when detecting for a first predetermined period of time that the gas supplied via the gas meter 101 is not supplied to anything else other than the fuel cell module 7, controls to stop the power generation of the fuel cell module 7 for a second predetermined period of time.
