Abstract (en)

[origin: WO2015132322A1] The invention relates to a printing module and to a method for printing on a carrier body (9), in particular a carrier body (9) of a valuable document and/or security document, wherein the printing module (11) comprises at least one printing head (10) and at least a first container (15), wherein the at least one printing head (10) has a printing-head inlet (17) and at least one nozzle (23), wherein the printing head (10) has a printing-head outlet (18) and is connected to the first container (15) by means of the printing-head outlet (18), wherein at least part of the first container (15) is arranged in front of the at least one printing-head outlet (18) in a nozzle outlet direction (z). The invention further relates to a printing device (1).
