Abstract (en)  
[origin: WO2015132177A1] The invention relates to a light fixture (1) or a lighting assembly comprising an elongated carrier element (5), at least one lighting module (20), which can be detachably secured to the carrier element (5), and end face parts (15) for the carrier element (5). Each of said end face parts can be arranged on one end region of the carrier element (5) and the end face parts (15) are fixed in position by the at least one lighting module (20) that is secured to the carrier element (5).
