Abstract (en)

[origin: KR20170005768A] The present invention provides a method of controlling primary drive of a fine blanking press, and an apparatus to control primary drive of a fine blanking press wherein the fine blanking press is operated by hydraulic pressure and a press having a simple design. To achieve this purpose, a main piston (20) comprises disk-shaped protruding working surfaces (22a, 22b).
