Abstract (en)

[origin: WO2015140812A2] The invention provides a process for preparation of polymorphic form I of Agomelatine comprising dissolving Agomelatine in a water miscible organic solvent to obtain Agomelatine solution (solution A), preparing a solution of water miscible organic solvent and water (solution B) and cooling to below 0 °C, adding solution A to solution B at below 0 °C and precipitating Agomelatine polymorphic Form 1.
