Abstract (en)

[origin: WO2015145153A1] A heel construction for a high heeled shoe (11) includes a sole plate (10) and a heel pin (12) projecting downwardly from the sole plate. A detachable heel component (16) is fitted to the heel pin and a releasable locking arrangement serves to secure the heel component to the heel pin. The locking arrangement may comprise a threaded region (20) on the pin and engageable by a nut (23) carried in the heel component (16) or may comprise snap fittings 52,57 on the heel pin and within the heel component, to secure the heel component to the heel pin.
