Abstract (en)
[origin: WO2015144756A1] The invention relates to a carrier sheet (1) for a plurality of information carriers (2) that can be secured to the upper side of said carrier sheet (1) and can be marked using a marking device. The claimed carrier sheet (1) allows simple and fast marking of information carriers (2) followed by simple handling of said information carriers (2) and carrier sheet (1) by virtue of the fact that, on the upper side of said carrier sheet (1), a plurality of fields (3) is arranged each of which can be used to position an information carrier (2) on the upper side of said carrier sheet (1), these fields (3) being able to be separated from the rest of the carrier sheet (1).
