Abstract (en)

[origin: WO2015144595A1] The invention relates to a device (1) for dispensing a flowable product in a metered manner, comprising: a container (10), which has a container interior (15), a container opening (11), and a container wall; and a metering apparatus (30), which is fastened to the container opening (11) and which has a dispensing opening (45) for dispensing the product, a pre-chamber (44), and a metering chamber (33), wherein the metering chamber (33) is located within the container (10) and has a chamber wall (34). A fill level of the product in the metering chamber (33) is visible from outside the container.
