Abstract (en)

[origin: WO2015144236A1] The present invention relates to a pivotable door (1) for use in a household appliance (2), in particular a dryer comprising a main body (3), a laundry drum (4), an opening (5) for accessing the laundry drum (4) and mounting seats (6a, 6b) for selectively and releasably mounting a hinge assembly (7) of the door (1) for either left-hand swing or right-hand swing respectively. The pivotable door (1) of the present invention comprises an inner-door assembly (8a) for leak- tightly closing the opening (5), wherein the inner-door assembly (8a) is rotationally asymmetric and an outer-door assembly (8b) which has a hinge assembly (7) and a lock assembly (9), wherein the hinge assembly (7) and the lock assembly (9) are both non-releasably fastened to the outer-door assembly.
