Abstract (en)

[origin: WO2015148936A1] A method for displaying data is disclosed. The method may include displaying an application on a mobile electronic communication device. The method may further include contacting at least one media server configured to store media data and receiving, at the mobile electronic communication device, first available media data from the at least one media server. The method may further include displaying the received available media data in a media stream within the application. The method may also include contacting, after a predetermined amount of time, the at least one media server and receiving, in response to the contacting, at the mobile electronic communication device, second available media data from the at least one media server. The method may further include displaying the second available media data in the media stream.
