Abstract (en)
[origin: CA2942238A1] The invention relates to a pull-out guide (8) for a drawer (1), comprising a guide rail (9) which can be fixed to a body and a running rail (10) which is movably mounted. At least one central rail (11) can optionally be provided between the guide rail (9) and the running rail (10), and a securing device (20) with a holder (21) is provided on the running rail (10), wherein a drawer (1) can be fixed to the holder. The holder (21) is mounted in a movable manner in the longitudinal direction of the running rail (10) and is pretensioned towards the front in the pull-out direction by means of an energy accumulator (28). In this manner, a drawer can be easily mounted on the securing device, and manufacturing tolerances can be compensated.
