Abstract (en)

[origin: WO2015150209A1] The invention relates to a hand-held tool system (1), having a hand-held power tool (2), in particular a drill, having a wall device (3) which can be mounted on a wall to be processed by means of the hand-held power tool and has at least a first sensor device (8) that is designed to determine an orientation of the hand-held power tool (2) relative to the wall device (3).
