Abstract (en)

[origin: WO2015149829A1] The present invention relates to a gas cooking appliance (1) comprising a casing (2) which has an upper cover (3), a base cover (4) and a plurality of gas burner assemblies (6a to 6d). The gas cooking appliance (1) of the present invention comprises a metal support plate (5) which is connected to the base cover (4) so as to reinforce and support from below the upper cover (3) and the functional components (7) are arranged into a space between the support plate (5) and the base cover (4).
