Abstract (en)

[origin: WO2015185335A1] In order to devise a simple and inexpensive method for producing a solid-insulated circuit-breaker pole (1), the disclosed method for producing a solid-insulated circuit-breaker pole (1) comprises the steps of: - forming a pole shell housing (2) with an elastic layer (14) that is integrally joined to the pole shell housing (2); - mounting a vacuum fault interrupter (5) into the pole shell housing (2) provided with the elastic layer (14). Also disclosed is a solid-insulated circuit-breaker pole (1).
