Abstract (en)

[origin: WO2015158822A1] The invention relates to a rolling press (1) for comminuting brittle grinding material, comprising a first grinding roll (22) and a second grinding roll (23). At least one grinding roll is an idle roll (23) which is movably mounted in a machine frame (24), and at least one grinding roll (22, 23) has an electric drive. According to the invention, the electric drive (28, 28', 29, 29') of the at least one grinding roll (22, 23) is located on both sides, at both ends of the roll(s).
