Abstract (en)

[origin: WO2015162582A1] The invention relates to a cleaning device (1) for cleaning disposable or reusable wet razors comprising a razor head (2b). The cleaning device (1) consists of a housing (3) and a rinsing unit for rinsing the razor head (2b) of the wet razor (2). According to the invention, a vibrating table (9) is provided within the housing (3) in such a way that the vibrating table is suitable at least for accommodating the razor head (2b). In addition, a cleaning process can be performed using water, a water jet and/or air.
